

AIRS Training Program

***Presented to the SIEC
August 17, 2010***

***Andrew Clark
PSIC Project Manager***

Outline

- Training Program Background
- Training Program Components
- Program Rollout
- View Video; Request Feedback

Background

- Connection to SCIP - Objective 10.1: Develop and Implement AIRS Training
- Funding for AIRS Training - \$55,000 FEMA Interoperable Emergency Communications Grant Program (funding directed to PSIC by Sedona Fire District)
- Training Program Designed to:
 - Promote AIRS by informing agencies about its existence and capabilities
 - Ensure effective use of AIRS as a statewide interoperable communications asset

Program Components

- Training Video

- Produced by Phoenix Fire Department
- Covers material outlined in AIRS SOP approved by PSCC in February 2010
- 10:50 minutes in length

- Lesson Plan

- AZPOST format
- Covers AIRS usage, capabilities and limitations

- PowerPoint

- Follows lesson plan

- Sticker

- Shows regional channel assignments
- Can be inserted into NIFOG or placed on clipboards, dashboards, consoles

Program Rollout

- Current MOU Signers

- All current and future MOU signers will receive a DVD of the training video at no cost

- Broad Distribution

- PSIC will work with key public safety agencies to obtain endorsements for AIRS and AIRS Training (i.e., AACOPS, AFDA, Associations - AZ Ambulance, AZ Sheriffs, Fire Chiefs)
- PSIC will send training video/materials and endorsement letters to key public safety personnel in the state

- Online Access

- Training video to be uploaded to YouTube
- Training video and other training materials to be available on PSIC website

- PSIC Training & Support

- Michael Todd and Andy Clark from the PSIC Office are available to do AIRS trainings and support local implementations of AIRS usage
